

PLANNING APPLICATION FOR EXPANSION OF YORKSHIRE WILDLIFE PARK

Re: Planning Application No. 17/02189/OUTA
Yorkshire Wildlife Park, Brockholes Lane, Branton, Doncaster

Hybrid Planning Application - Change of use of land to facilitate expansion of Yorkshire Wildlife Park, creation of new access, parking and associated works with outline approval for animal enclosures, visitor hub, service compound, energy centre and connecting bridges

Yorkshire Wildlife Park, has submitted an outline planning application to expand the site, including the creation of a new vehicular access from Hurst Lane, Auckley. Many residents have grave concerns regarding the new access, given that Hurst Lane is an extremely busy road- particularly with the construction of a new Sixth Form College and the large housing complex currently being constructed on the lane near to the airport link road.

The Parish Council can only give comments on planning applications, all decisions are made by Doncaster Council's Planning Committee, however, the views of members of the public will be taken into consideration when this goes to Committee. It would therefore be greatly appreciated if residents and other interested parties could write or send an email message to Doncaster Council with their views on this application as soon as possible.
